Disc-catching Target Specifications Claimed*

Name of disc-catching target _____
 Outer diameter of basket rim (cm) _____
 (must be 67 cm or less)
 Minimum basket depth (cm) _____
 (must be 15 cm or more)
 Height of basket rim above ground (cm) _____
 (must be between 76 and 89 cm)
 Maximum width of deflection or
 entrapment apparatus (cm) _____
 (must be 71 cm or less)

Enclosed is a sample of the above named disc-catching target. A \$350 check has been sent to PDGA Headquarters (5 Dacotah Ave., Toronto, ON, CANADA M5J 2E4) for the testing and approval fee. If the disc-catching target fails to pass the PDGA tests, I understand that a new certification form and \$350 testing fee will be required for retesting by the Technical Standards Committee. This certification form and target are to be mailed to: Jeff Homburg, PDGA Technical Standards Committee Chair, 4502 E. 16th St., Tucson, AZ, USA 85711 (520)571-7787(h), (520)721-4309(w), jhomburg@msn.com

* The manufacturer's representative is encouraged to complete the above specifications to inform the TSC of measurements claimed, but there is no requirement to do so.
